

EAST AFRICAN COMMUNITY SECRETARIAT
- 50 MILLION WOMEN SPEAK (50 MWS) PROJECT -

TERMS OF REFERENCE
FOR
INDIVIDUAL CONSULTANCY SERVICES AS A LEAD CONTENT DEVELOPER
IN KENYA

1. Background

The East African Community (EAC) is a regional intergovernmental organization comprising the Republic of Burundi, the Republic of Kenya, the Republic of Rwanda, the Republic of South Sudan, the United Republic of Tanzania and the Republic of Uganda. The EAC Secretariat Headquarters are located in Arusha, Tanzania.

The EAC mission is to widen and deepen economic, political, social and cultural integration to improve the quality of life of the people of East Africa through increased competitiveness, value added production, trade and investments.

Article 5 of the EAC Treaty provides for gender equity, gender mainstreaming in all EAC Projects and Programmes and the enhancement of the role of women in cultural, social, political, economic and technological development.

The African Development Bank is collaborating with COMESA, EAC and ECOWAS through the 50 Million Women Speak (50MWS) Project to create a dynamic Digital Networking Platform for women entrepreneurs. The Platform will enable women to connect with one another in ways that will foster peer-to-peer learning, knowledge exchange/transfer, mentoring and the sharing of information and knowledge within communities, and provide them with access to trade finance and market opportunities between urban and rural areas, and across borders and between countries. In addition, the Platform will enable women to develop market intelligence skills to stay abreast of business development trends within their contexts, regionally and globally to ensure sustainability of their businesses. The Project is implemented in 38 countries belonging to COMESA, EAC and ECOWAS.

The Project is expected to achieve among others, the following results: increased access and use of financial services by women entrepreneurs; increased participation of women entrepreneurs in business networks; availability of statistics on women in business; and increased access to national and regional markets. Subsequently, the Project is expected

to contribute to the economic empowerment of women entrepreneurs through the use of the platform for business development.

To ensure collection, development and management of content on information needs and services for women in business, for the Digital Networking Platform in respective Partner States, Project Country Teams are being established in each Partner State made up of representatives from the Public Sector, Private Sector and Civic Society i.e. representatives from Ministries responsible for Gender, Trade, ICT, Youth, EAC Affairs, Private sector, Women Associations, and membership-based entities working with women in business or enterprise development. The Project Country Teams will be supported by two (2) Content Developers – a Lead Content Developer and an Assistant Content Developer in each Partner State.

2. Recruitment of a Lead Content Developer in Kenya

The EAC - 50MWS Project would like to recruit a Lead Content Developer from Kenya to support the Project Country Team in content development for the Platform. The Lead Content Developer will be resident within Kenya and will work closely with the Project Country Team and Assistant Content Developer to gather information and develop relevant content on information needs and services for women in business to be uploaded on the Digital Networking Platform.

3. Duties and Responsibilities of the Lead Content Developer

The Lead Content Developer will script, curate, summarize, originate and edit compelling, relevant and clear content on financial and non-financial services to be uploaded on the Digital Platform to help women entrepreneurs grow their businesses.

They will develop tailored content, ensuring it responds to the needs of the targeted audiences as well as help track success and make data-driven decisions for content changes.

Working with the Assistant Content Developer, the Lead Content Developer, in liaison with the Project Country Team will be largely responsible for information gathering and content development for the Digital Networking Platform. Specific roles and responsibilities will include, but not be limited to the following:

- Liaising with the Ministry of Gender to identify informational products or content to be featured in the platform;
- Developing an editorial calendar of content to be developed based on the identified information needs;
- Developing relevant original content beneficial to women entrepreneurs;
- Collaborating with the Project Country Team to continuously identify sources of content and develop appropriate content;

- Developing content that is informed by country specific information needs and services to enhance prospects of ownership and sustainability;
- Ensuring content is developed within the set timeframe;
- Ensuring the content gathered is validated by relevant authorities;
- Coordinating the Project Country Team for all 50MWS Project related activities;
- Coordinating content revision and updates - ensuring that the content on the Platform is relevant and up-to-date;
- Refining and improving content basing on feedback and analysis of platform performance;
- Liaising with the line Ministries/Agencies, National Gender Machineries including both the Private Sector and Civic Society;
- Curating content related to women economic empowerment initiatives and repurpose to suit the target audience;
- Continuously identifying topical and business trendy content beneficial to women entrepreneurs and develop relevant content;
- Developing content of different formats and styles to deliver unique and delightful experiences for platform users.
- Promoting the Project through participating in national events which focus on women economic empowerment;
- Working with outreach teams at country level on outgoing communications/messages
- Producing content (through articles, infographics, images or videos), which highlight success stories;
- Partnering with all stakeholders to ensure issues related to platform use are captured and channeled to be addressed (allowing women users to find solutions to common platform use issues)
- Providing capacity building and technical support through a combination of both hand-holding and tuition-based transfer of knowledge to members of the Project Country Team regarding content gathering, development and packaging and eventual dissemination;
- Coordinating field visits with Donors, media or with any other delegation
- Developing simple, easy-to-understand, user friendly content;
- Writing and submitting country reports and statistics on the project;
- Acting as a careful custodian of the 50 Million Platform brand, representing it to an audience;
- Act as the Team Leader and Supervisor to the Assistant Content Developer;

The right candidate will be passionate about working with others, “translating” technical concepts into simple, easy-to-understand content.

4. Reporting

The Lead Content Developer will work under the direct supervision of the National Focal Point of the 50 MWS Project from the Ministry of Public Service, Youth and Gender with a dotted reporting line to the Project Content Manager at EAC Secretariat.

5. Skills and Competencies

The ideal candidates should demonstrate and provide examples of past similar tasks undertaken in content development for websites, portals and/or related media channels at national or regional level. They must be creative thinkers to conceptualize content. Experience in knowledge management will be highly desirable. They should be able to stay up-to-date with developments and generate innovative ideas to draw audiences' attention. The candidates should have a good understanding of challenges affecting women in business as well as various sources of content required for the Platform in the respective country. Applicants must be citizens of Kenya They should preferably be having knowledge of local languages, cultural backgrounds, administrative systems and government organization structures.

He/She should have the following skills and competencies:

- i. Excellent writing, editing and presentation skills;
